

FARM-MAXX

FMRB-330 Round Baler

FMRB-330 Round Balers feature robust construction for years of trouble free baling. The superior design and simple plug & play hook-up means no messy hydraulic hoses. This makes these twine balers perfect for the small farmer in a hurry. Hay, straw, forage, even pine straw are no problem for this machine. Just connect your tractor to the three point hitch, plug in the wiring harness and off you go!

**Uses standard and readily available natural or plastic twine.

MODEL	FMRB-330
Hitch	Cat I/II
PTO	540 RPM
Bale Wrapping - Twine	Jute/Plastic
Capacity - Bales Per Hour	60-100
Bale Size - Diameter/Width	20" x 28"
